It is the pool owner's responsibility to ensure that the pool (including the barriers for the pool) is properly maintained at all times to comply with the pool safety standard under the *Building Act 1975*. Gates and doors giving access to the pool must always be kept securely closed while they are not in use. High penalties apply for non-compliance. It is essential that parents and carers carefully supervise young children around swimming pools at all times. Parents should also consider beginning swimming lessons for their young children from an early age. Please visit www.qbcc.qld.gov.au/home-building-owners/pool-safety for further information about swimming pool safety. This pool safety certificate does not certify that a building development approval has been given for the pool or the barriers for the pool. You can contact your local government to ensure this approval is in place.
